**ADDENDUM
LICENCE FOR TELECOMMUNICATION LINE TERMINAL EQUIPMENT
(SUPPLEMENTARY CONDITIONS)
TELECOMMUNICATION TERMINAL EQUIPMENT CERTIFICATE**

This type approval certificate is issued subject to the conditions, procedures and instructions as detailed hereunder and must be adhered to:

1. Standard Conditions

- 1.1 The certificate holder will be obliged to effect, at his/her own expense, any modifications that may be required in order for the type approved equipment to comply with the latest technical specifications issued by the independent Communications Authority of South Africa (ICASA).
- 1.2 All marketed equipment of the same make and model, shall have the same technical and operational characteristics as the evaluated sample(s), including any modification(s) that may have been prescribed by ICASA.
- 1.3 The certificate holder shall not modify the licensed equipment or add any facility to it that will cause it to deviate in any way from the conditions of the licence, nor shall he allow any other person to do so, without the written consent of ICASA.
- 1.4 Should it be found at any time, that a licensee fails to comply with the conditions of this licence, or for any other valid reason, ICASA may revoke this licence, with due prior warning.
- 1.5 Should the licence be revoked in terms of clause 1.4, it must be returned to ICASA within 14 days.
- 1.6 This licence is not transferable and the licensee shall not transfer his licence to any other person or entity, nor surrender it in any other way in favour of another, except with the written approval of ICASA.
- 1.6 Main distributors or importers of TLTE shall ensure that their secondary suppliers or distributors obtain the necessary sub-licences from ICASA, for any such equipment distributed, sold or installed by them.
- 1.8 This licence does not grant exclusive rights to the supplier. ICASA reserves the right to issue a licence to any other person to connect similar equipment to the network.
- 1.9 The certificate holder or his agent(s) shall not verbally or otherwise intimate to any person that ICASA sponsors or recommends in any way, the use of particular equipment. However, the licensee may inform potential customers by means of advertising, that he is in possession of a valid type approval certificate issued by ICASA for a particular equipment. The licensee shall have the original or a certified copy of the certificate, available at every point of sale and shall produce such licence on request.
- 1.10 Should it be found that faulty equipment adversely affects the public network, ICASA may take such steps as it deems necessary to protect the integrity of the Public Switched Telecommunications Network (PSTN).
