Change impact	
Risk assessment	<ul style="list-style-type: none"><li>■ Physical design remains unchanged.</li><li>■ Ordering code changes require clients to review their current codes.</li><li>■ Devices with the new modem support only firmware version RutOS RUT2M_R_00.07.12.3 or higher.</li><li>■ Custom firmware built on previous SDK versions is not supported.</li><li>■ Due to the removal of WCDMA B5, clients relying on 3G connectivity must validate new RUT200 samples.</li><li>■ Datasheets and certifications will need updating accordingly.</li></ul>
