Change impact	
Risk assessment	<p>If your use case involves the utilization of USB VID/PID, it is important to note that these identifiers will change after a RutOS 7.08 firmware update. Therefore, if you are using the VID/PID in a specific manner, adjustments will need to be made to accommodate this change. However, if you have not customized or hardcoded any processes related to the VID/PID, this change should not have any impact.</p>
Suggested implementation plan	<p>Information included in this PCN will help adapt to the upcoming changes. For more detailed information, please contact your sales representative.</p>
