

## 2025.01.20: TRB140 Hardware Changes

Starting in January 2025, several hardware changes will be implemented for the TRB140 device, including a new PHY chip, updated SMA connectors, and an outward adjustment of the USB connector.

PCN Number: PCN\_TRB140\_PHY\_SMA\_USB\_2025.01.20\_EN

Change description		
Change type	Hardware changes	
Detailed description	<p>1. Starting January 2025, all TRB140 devices will be manufactured with a new PHY chip. They will require <a href="#">firmware version 7.06.07</a> or newer. Downgrading to earlier firmware versions will no longer be supported.</p> <p>2. TRB140 devices will feature updated RP-SMA and SMA connectors. These updates will not affect connector functionality but will enhance their form and manufacturability.</p> <p>3. The USB connector on TRB140 devices will be moved slightly outward to improve usability and cable compatibility.</p> <p>During a 3-month transition period starting in January 2025, shipments may contain either the current or updated design.</p>

**Change impact**

## Risk assessment

1. PHY chip update: Firmware-related risks only. Older firmware versions are incompatible with new devices.
2. SMA connector update: No functional risk; only a physical design change.
3. USB connector adjustment: Minimal risk; improved usability expected.

## Suggested implementation plan

For detailed information, please contact your sales representative. Ensure your systems are compatible with firmware version 7.06.07 or newer for PHY chip compatibility.
