

2025.02.20: WebUI Mode Update with RutOS 7.13

With the release of RutOS version 7.13, TRB246 the WebUI will undergo changes to enhance user experience and accessibility.

PCN Number: PCN_RUTOS_CHANGE_TRB246_2025_02_17_EN

Change description

Change type	Firmware change
Detailed description	Previously, the WebUI provided two separate modes: Basic Mode and Advanced Mode. With the introduction of RutOS 7.13, these two modes will be merged into a unified interface, where users will have access to all settings within one mode.
Change reasons	<ul style="list-style-type: none"> • Improved Usability: A single mode simplifies navigation and enhances user-friendliness. • Increased Accessibility: All essential settings remain available without needing to switch between modes. • Optimized User Experience: A streamlined design enhances efficiency and ease of use. • User-Driven Enhancement: This change is based on user feedback, aiming to create a more intuitive and accessible WebUI experience.

Affected products information

Model	Affected order codes	Order code changes
TRB246	TRB246 *****	No changes
Upcoming change date	2025 Q2, with the release of RutOS 7.13	

Change impact

Risk assessment	<ul style="list-style-type: none"> • Users accustomed to switching between Basic and Advanced Mode may require time to adapt to the unified interface. • Settings will now be presented in a single, continuous view rather than separated into different modes. • Minor learning curve for users transitioning from previous WebUI versions.
Suggested implementation plan	<ul style="list-style-type: none"> • Review the unified WebUI mode and familiarize yourself with having all settings available. • Refer to the updated user documentation and support resources for guidance. <p>Information included in this PCN will help adapt to the upcoming changes. For more detailed information, please contact your sales representative.</p>
