

2024.06.19: New hardware revision

Starting from 2024 Q3, TSW100 switch will be produced with new hardware revision. These changes include the use of a different networking chip and transition to PoE alternative A instead of alternative B.

PCN Number: PCN_TSW100_New_Hardware_2024_06_19

Change description

Change type	Hardware change
Detailed description	In order to ensure better compatibility with other devices, starting from 2024 Q3, TSW100 switch will be produced with PoE alternative A. The change in the networking chip does not impact functionality in any way. For more information about PoE alternative A and alternative B, please visit: wiki.teltonika-networks.com/view/TSW100_First_Start
Change reasons	Increasing compatibility and reducing lead times

Affected products information

Model	Affected order codes	New Order codes
TSW100	TSW100 *0****	TSW100 *1****
Upcoming change date	2024 Q3	

Change impact

Risk assessment	Devices exclusively dependent on PoE alternative B will be incompatible with the TSW100 switch. However, it's important to note that such instances are uncommon. The ordering process may need to be reviewed due to changes in the ordering codes.
Suggested implementation plan	Information included in this PCN will help adapt to the upcoming changes. For more detailed information, please contact your sales representative.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.
