Product change notifications (PCN) is a way of informing customers of upcoming changes related to Teltonika Networks products. This includes outward appearance adjustments, hardware improvements, changes to package contents, etc.

This page stores information regarding changes to the Teltonika Networks devices powering options. Below you will find a list of both upcoming and already implemented changes sorted by newest to oldest (top to bottom).

2024.02.29: PR3PUEU3 PSU Change

Starting from 2024 Q2, PR3PUEU3 PSU will be changed to an alternative model.

PCN Number: PCN_PR3PUEU3_2024_02_29_EN

Change description

Change type	Mechanical, electronical and visual change	
Detailed description	Commencing from 2024 Q2, the current PR3PUEU3 PSU will undergo a transition to an alternative model, featuring increased dimensions, as outlined below, to decrease lead times. Importantly, while the physical appearance will change, the alternative PSU will maintain identical functionality. The transition primarily involves analog components, ensuring seamless operation in a manner consistent with the current model.	
	Current measurements:	New PSU measurements:
	<input type="checkbox"/>	<input type="checkbox"/>
	Datasheet	Datasheet
Change reasons	Packaging dimensions will not change. Decreasing lead times.	

Affected products information

Model	PR3PUEU3
Upcoming change date	2024 Q2

Change impact

Risk assessment	<ul style="list-style-type: none">• The altered measurements of the new alternative PSU may require a thorough assessment of spatial compatibility and potential adjustments to ensure seamless integration within the designated area.• The alteration in the electrical components of the new PSU may pose a risk of non-compliance with EMC and safety standards. This could necessitate the repetition of compliance tests.
Suggested implementation plan	No implementation plan needed.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

2021.05.01: Power Supply Unit (PSU) changes

Starting at 2021-05-01, with 2 month transitional period, PSU's shall be changed.

Change description

Change type Mechanical and visual
 Detailed description Some PSUs shall have cable length changes, others - visual changes.
 Change reasons Improvement to reliability and quality of our PSU's.
 Change date **2021-05-01**

Affected products

Model All PSU's that are provided in the table below.

Change impact

Risk assessment New datasheets should be reviewed as not to miss cable length changes or marketing material changes.
 Suggested action taken No implementation plan needed.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.
