

Product Change Notifications

[Main Page](#) > [General Information](#) > **Product Change Notifications**

Sometimes Teltonika-Networks takes the opportunity to improve products in ways that may prove to be significant to our clients. Before changes are implemented, Teltonika-Networks will send out an email to our clients informing them of the upcoming adjustments. The changes for each device are also documented on this Wiki in **Product Change Notifications (PCN)** pages.

This includes outward appearance adjustments, hardware improvements, changes to package contents, etc. However, changes related to a product's firmware are not included in PCNs.

Please refer to the links below for information on your device's PCNs.
