RMS VPN

[Main Page](#) > [IoT Platforms](#) > [RMS](#) > [RMS Manual](#) > **RMS VPN**

RMS VPN is a service designed for remote efficient, low-cost management of large-scale networks. As opposed to point-to-point VPN service, RMS VPN allows creating encrypted VPN tunnels for secure access of multiple endpoints within a matter of seconds. This includes such services as:

- [VPN Hubs](#)
- [VPN quick connect](#)
