RUT240 PTCRB

PTCRB is a certification organization established by leading wireless operators to define test specifications and methods to ensure device interoperability on global wireless networks.

Contents

Description

With PTCRB certification, operators and device manufacturers are confident of a device's interoperability with mobile networks.

Established in 1997 by leading wireless operators, PTCRB defines the test requirements to verify compliance with global industry standards for wireless cellular devices. Member operators are committed to ensuring device quality through a rigorous certification process. Without PTCRB certification, manufacturers run the risk that their devices will be blocked on wireless networks.
