

RUT900 Logs

[Main Page](#) > [RUT Routers](#) > [RUT900](#) > [RUT900 Manual](#) > [RUT900 WebUI](#) > [RUT900 Status section](#) > **RUT900 Logs**

The information in this page is updated in accordance with firmware version .

Note: [click here](#) for the old style WebUI (FW version RUT9XX_R_00.06.09.5 and earlier) user manual page.

Contents

- [1 Summary](#)
- [2 Events Log](#)
- [3 Traffic Log](#)
- [4 Hotspot Log](#)

Summary

The **Logs** section contains information on various device related events. This article is an overview of the Logs section for RUT900 routers. If you're having trouble finding this page or some of the parameters described here on your device's WebUI, you should **turn on "Advanced WebUI" mode**. You can do that by clicking the "Advanced" button, located at the top of the WebUI.

Events Log

The **Events Log** section contains a chronological list of various events related to the device. The figure below is an example of the Events Log page:

Traffic Log

The **Traffic Log** section displays traffic which goes through one of the WAN interfaces. The device does collect data for the Traffic Log by default. To see Traffic Log information you must first enable Traffic Logging from the Services → [Traffic Logging](#) page.

The figure below is an example of the Traffic Log.

Hotspot Log

The **Hotspot Log** section displays Hotspot user information. The figure below is an example of the Hotspot Log.
