RUT901 Product Change Notifications

Product change notifications (PCN) is a way of informing customers of upcoming changes related to Teltonika Networks products. This includes outward appearance adjustments, hardware improvements, changes to package contents, etc. Changes related to a product's firmware are not included in PCNs (click here to see the firmware changelog).

This page stores information regarding changes to the <u>RUT901</u> device. Below you will find a list of both upcoming and already implemented changes sorted by newest to oldest (top to bottom).

Contents

the change as indicated above

- 1 2024.05.15: New PCB revision
- 2 2024.05.15: QSG flyer replacement
- 3 2024.03.08: Reset button functionality change RutOS 7.07
- 4 2024.01.10: New PCB revision
- 5 2023.09.04: Packaging box changes
- 6 2023.04.17: Product packaging changes
- 7 2023.02.13: MAC address range change

2024.05.15: New PCB revision

Starting from Q3 2024, RUT901 router will be manufactured with updated MAIN and RF PCB revisions.

PCN Number: PCN_RUT901_New_PCB_Revision_2024.05.15		
Change description		
Change type	Hardware change	
Detailed description	Starting from Q3 2024, RUT901 router will be manufactured with updated MAIN and RF PCB revisions. The following are the detailed updates made to the MAIN and RF boards: • Added SIM card presence triggers to SoC GPIO • Added shift register clearing circuitry • Added pull-down resistors on pins to address potential issues that may arise when shift registers are in the tri-state high-z state. Please note that this change will be implemented gradually, throughout a 3-month transitional period starting from Q3, 2024. During this period, your shipments of RUT901 may consist of either the current MAIN and RF PCB or the new one described above.

2023.09.04: Packaging box changes

Starting from Q4 2023, batch 010, the product packaging of RUT901 will be updated with the following changes.

Change description

Packaging Change type

The fibre inserts of each product and its accessories will be replaced with individual cardboard boxes. Of those boxes, the product box will include the Teltonika Networks logo and company information, and accessory boxes will include the accessory name, order code, image, EAN barcode, and QR code. Any empty space in the packaging will be filled with Corrugated fibreboard fillers. These updates are meant to reduce the environmental footprint of our products, with eliminating plastic packaging being the primary focus Please note that this change will be implemented gradually, throughout a 4-month transitional period starting from Q4 2023, batch 010. During this period, your shipments of RUT901 may consist of either the current packaging or the new one described above. For inquiries regarding custom order codes, please contact your designated sales representative.
