Description

The standard decides the burning rate of materials in the occupant compartments of motor vehicles. Requirements of burning rates are found in ECE Regulation 118.

Attachments

Compliance with the requirements of the regulation was evaluated by **TÜV SÜD Auto Service GmbH** after the inspection of the assembly of retaining rails, circuit board, connection sockets and various other electronic components. The evaluation conclusion - RUTC50 meets the requirements of the regulation without testing.

Declaration of conformity:

Declaration of Conformity
