Description

The network is built for public safety, featuring a dedicated infrastructure that separates public safety and normal user traffic. FirstNet subscribers are provided with always-on priority on LTE Band 14 and preemptive access to network resources during periods of high network traffic. FirstNet users who assist first responders can be granted priority status, ensuring uninterrupted communication during critical times.

FirstNet approval

Devices with the product codes:

- RUTM50 **0*******¹

are approved by AT&T for use on the First Responder Network.

¹ - the "*" in product code represents any alphanumerical character
