Description

IEC 60068 is a collection of methods[1] for environmental testing of electronic equipment and products to assess their ability to perform under environmental conditions including extreme cold and dry heat. IEC 60068 offers appropriate severities and prescribes various environmental conditions for measurements and tests.

IEC 60068 has three parts:

- IEC 60068-1: General and guidance
- IEC 60068-2: Tests
- IEC 60068-3: Supporting documentation and guidance

Standards applied

The conformity with the essential requirements has been demonstrated against the following standards:

Standard	Description
IEC 60068-2-64	Environmental testing - Part 2-64: Tests - Test Fc: Vibration (Random)
IEC 60068-2-27	Environmental testing - Part 2-27: Tests - Test Ea and guidance: Shock
IEC 60068-2-27	Environmental testing - Part 2-27: Tests - Test Ea: Bumps
IEC 60068-2-30	Environmental testing - Part 2-30: Tests - Test Db: Damp heat, cyclic
