

TRB140 Product Change Notifications

[Main Page](#) > [TRB Gateways](#) > [TRB140](#) > **TRB140 Product Change Notifications**

Product change notifications (PCN) is a way of informing customers of upcoming changes related to Teltonika Networks products. This includes outward appearance adjustments, hardware improvements, changes to package contents, etc. Changes related to a product's firmware are not included in PCNs ([click here](#) to see the firmware changelog).

This page stores information regarding changes to the [TRB140](#) device. Below you will find a list of both upcoming and already implemented changes sorted by newest to oldest (top to bottom).

2024.03.08: Reset button functionality change RutOS 7.07

With the release of RutOS version 7.07, TRB140 device will experience changes related to the security improvements of the device.

PCN Number: PCN_RUTOS_CHANGE_2024_03_08_EN

Change description

Change type	Firmware change
Detailed description	Previously, during device resets, logs, RMS connection state data, and SIM PIN settings remained unchanged. However, starting with RutOS firmware version 7.07, all devices will uniformly reset logs, RMS connection state data, and SIM PIN settings to factory defaults when using the reset button. Other reset methods, including WebUI, SMS, and others, will remain unimpacted by this change.
Change reasons	Increasing security

Affected products information

Model	Affected order codes	Order code changes
TRB140	TRB140 *****	No changes
Upcoming change date	2024 Q2, with the release of RutOS 7.07	

Change impact

Risk assessment	<ul style="list-style-type: none">• The loss of device logs upon utilizing the reset button may disrupt operational records and slow down subsequent troubleshooting efforts.• Failure to set up the SIM PIN post-reset via the reset button may result in SIM card lockout due to repeated incorrect PIN entries, causing service disruption and requiring either SIM replacement or PIN reset.• The device is still visible in RMS post-reset but cannot be accessed. Therefore, re-adding the device to RMS is necessary for continued access.
Suggested implementation plan	Information included in this PCN will help adapt to the upcoming changes. For more detailed information, please contact your sales representative.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

2023.10.16: Firmware Requirement Change

Starting from November 2023, all TRB140 devices will be manufactured with a new firmware version. They will require firmware version TRB1_R_00.07.05 or newer.

Change description

Change type Firmware Requirement Change
Starting November 2023, all TRB140 devices will be manufactured with a new firmware version. They will require firmware version TRB1_R_00.07.05 or newer. Downgrading to previous firmware versions will no longer be supported. Please note that this change will be implemented gradually, throughout a 4-month transitional period starting from November 2023. During this period, your shipments of TRB140 may consist of either the previous version or the new one described above.

Detailed description

Change reasons

Support
for
newest
Quectel
modem
firmware

Affected products information

All TRB140 ***** product codes are affected. No product code changes.

Product release date

November 2023

Change impact

Risk assessment

No risk factors are associated with this change.

Please note: this product change notification does not affect any previous TRB140 devices, except new TRB140 devices.

Suggested implementation plan For more detailed information please contact your sales representative.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

2023.02.13: MAC address range change

All Teltonika Networks devices manufactured starting from 2023, week 9 will have additional new MAC address range.

Change description

Change type MAC address range

Detailed description

All Teltonika Networks devices manufactured starting from 2023, week 9 may have a MAC address from the new MAC address range **20:97:27:00:00:00 - 20:97:27:FF:FF:FF**, as well as the current MAC address range 00:1E:42:00:00:00 - 00:1E:42:FF:FF:FF

Change reasons

Endpoint of the previous MAC address range.

Affected products information

Model

Affected order codes

Order code changes

All Teltonika Networks devices

All order codes

No changes

Upcoming change date

2023, week 9

Change impact

Risk assessment

Device install procedures or any automated solutions might need modifications.

Suggested implementation plan For more detailed information please contact your sales representative.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

2022.11.25: Default password change

All TRB140 devices manufactured starting from 2022, week 50, will have unique default password.

Change description

Change type

Default password change.

Detailed description

TRB140 devices manufactured starting from Q4 2022 will have unique default password.

Change reasons

Increasing device security.

Affected products information

Model	Affected order codes	Order code changes
TRB140	TRB140 *****	No changes
Upcoming change date	2022, week 50	

Change impact

Risk assessment Device install procedures or any automated solutions might need modifications. **Please note:** this product change notification does not affect any previous TRB140 devices.

Suggested implementation plan For more detailed information please contact your sales representative.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

2022.11.25: QSG flyer replacement

Starting from 2022, week 50, TRB140 gateway will come with a new QSG flyer in the packaging.

Change description

Change type	Replacement of QSG flyer	
Detailed description	TRB140 devices manufactured starting from Q4 2022 will have a new QSG flyer in the packaging. The new QSG flyer includes the short version of QSG with a QR code/link to the full Web QSG version: teltonika-networks.com/QSG_TRB140	
Change reasons	Previous design: 	New design: 
	The new flyer will include QR codes with URL links to RMS and the Web version of the QSG (Quick Start Guide) for the TRB140.	
Change reasons	Reducing environmental impact.	

Affected products information

Model	Affected order codes	Order code changes
TRB140	TRB140 *****	No changes
Upcoming change date	2022, week 50	

Change impact

Risk assessment Marketing material such as photos might need replacing.

Suggested implementation plan Information included in this PCN will help adapt to the upcoming changes.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

To download the pdf version of this notification, [click here](#).

2022.11.25: Changes in engraving/labeling

Starting from 2022, week 50, TRB140 gateways will be produced with modified bottom engraving/labeling.

Change description

Change type	External/visual	
Detailed description	The device's unique default password will be added to the bottom engraving/labeling. The formatting for the remaining information on the labeling/engraving will be adjusted, and the Fira font will be used instead of Arial. The device's unique default password information will also be added to the QR code Information displayed after scanning QR code with syntax: SN:{{SN}};I:{{IMEI}};M:{{MAC}};U:admin;PW:{{DEVICEPASSWORD}};B:{{BATCH}};	
	From the device top engraving/labeling, the previously relevant authentication information text will be removed: User/Pass: admin/admin01 .	
Change reasons	The labeling on the product packaging will stay unchanged.	
	Old top engraving/labeling: 	New top engraving/labeling: 
	Old bottom engraving/labeling: 	New bottom engraving/labeling: 
Change reasons	To accommodate the change from the standard default password to a unique default password for each device.	

Affected products information

Model	Affected order codes	Order code changes
TRB140	TRB140 *****	No changes
Upcoming change date	2022, week 50	

Change impact

Risk assessment Changes to top labeling/engraving. Device's unique default password will be present on the product itself. This might impact marketing materials due to changing contents of the bottom informational engraving/labeling.

Suggested implementation plan No implementation plan needed.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

To download the pdf version of this notification, [click here](#).

2022-05-24: Ethernet Transceiver chip change

All TRB140 devices manufactured from Q3 2022, will require firmware version **TRB1_R_00.07.02** or newer for the Ethernet interface to utilize Ethernet functionality properly.

Change description

Change type	Ethernet Transceiver chip changed. All TRB140 devices manufactured from Q3 2022, will require firmware version TRB1_R_00.07.02 or newer for the Ethernet interface to utilize Ethernet functionality properly. Ethernet functionality will not be supported with previous firmware versions.
Detailed description	Custom firmware built on previous SDK versions will not support Ethernet functionality for devices manufactured starting from Q3 2022.
Change reasons	Reducing product lead times.

Affected products information

All TRB140 ***** product codes are affected. No product code changes.

Product release date Q3 2022

Change impact

Risk assessment It is advised to test **TRB1_R_00.07.02** Firmware release.

Suggested implementation plan Firmware downloads for the device can be found [here](#).
For more detailed information please contact your sales representative.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

To download the pdf version of this notification, [click here](#).

2020.08.14: changes in bottom labeling

Effective 2020, week 36, TRB140 gateways will be produced with modified bottom labeling/engraving.

Change description

Change type	External/visual
Detailed description	The product code will be removed from the bottom labeling/engraving. The formatting for the remaining information on the labeling/engraving will be adjusted. Product code information will also be removed from the QR code. The labeling on the product packaging will stay unchanged.
Change reasons	Old version:  New version:  Placing product code on the product itself is misleading, product code describes what is included in the product equipment package, not in the product itself.

Affected products information

All TRB14* ***** product codes are affected. No product code changes.

Product release date 2020, week 36

Change impact

Risk assessment The exact product code will not be present on the product itself, the exact product code will be found on the packaging box or determined by serial number. This might impact marketing materials due to changing contents of the bottom informational laser engraving.

Suggested implementation plan No implementation plan needed

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

To download the pdf version of this notification, [click here](#).

2020.06.12: RUTOS support

Effective since June 03, 2020, TRB140 support RutOS v2.3, available at [TRB140 Firmware downloads](#).

Change description

Change type Firmware
Detailed description Added RutOS Support for TRB14x series gateways
Change reasons Until now different TRB series gateways had their own FW version depending on LTE module. After this update FW will become common to all TRB14x gateways.

Affected products information

Model	Affected order codes	Order code changes
TRB140	TRB140 *****	No changes

Change impact

Risk assessment Migration from TRB1400_R_00.01.06.1 or older requires [Legacy firmware](#)
RutOS v2.3 includes Basic and Advanced modes, so some functionality may appear missing until Advanced mode is selected
Suggested implementation plan Special preparations are unneeded

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

To download the pdf version of this notification, [click here](#).

2019.05.30: New housing

Effective July, 2019, TRB140 devices will be produced with new rugged housing.

Change description

Change type Rugged housing standard order code added
Detailed description Power supply unit changed
Before: After:

Change reasons Improved ruggedness.

Affected products information

Standard order code will include housing		
Device	New standard code	Optional order code (without housing)
TRB140	TRB140003000	TRB140000000
Product release date	July, 2019	

Change impact

Risk assessment Pricing and lead time may be subject to change.
Marketing material such as photos or specification changes.
Suggested implementation plan Updated marketing material can be found [here](#). For more detailed, information please contact your sales representative.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.

To download the pdf version of this notification, [click here](#).

2019.05.20: Power supply unit (PSU) changed

Effective June, 2019, TRB140 devices will be sold with new power supply units (PSU).

Change description

Change type	Power supply		
Detailed description	Power supply unit changed		
	Current PSUs:	New PSUs:	
	PSU specifications		
	Electrical	9 VDC, 1 A (9 W)	9 VDC, 0.5 A (4.5 W)
		EU: 26 x 74 x 43 mm	EU: 26 x 59 x 41 mm
		UK: 48 x 73 x 47 mm	UK: 50 x 62 x 49 mm
		US: 26 x 74 x 43 mm	US: 26 x 59 x 41 mm
		AU: 40 x 74 x 51 mm	AU: 41 x 59 x 49 mm
	Dimensions		

Change reasons Power supply optimized for TRB14x series devices.

Affected products information

Model	Affected order codes	Order code changes
TRB14*	TRB14* *****	No changes
Product release date	June, 2019	

Change impact

Risk assessment Marketing material such as photos or specification changes.
Marketing material can be found [here](#).
Suggested implementation plan PSU datasheets can be found [here](#)
Information included in this PCN will help adapt to the upcoming changes.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.
