The **UK Conformity Assessment (UKCA)** is the UK product marking requirement that is required for products placed on the market in Great Britain (England, Scotland and Wales), substituting the EU requirements for CE Marking (CE marking will continue to be accepted in Northern Ireland). UKCA marking indicates that a product placed on the United Kingdom market meets the UKCA Marking requirements.

Description

UK started to use its own regulations instead of EU directives. Three of these regulations are shown on this table with its EU equivalences:

EMC Regulations 2016 (S.I. 2016/1091) Radio Equipments Regulations 2017 (S.I. 2014/30/EU) Electrical Equipment (Safety) Regulations 2016 (S.I. 2016/1101) Electrical Equipment (Safety) Regulations 2016 (S.I. 2016/1101) European Directive (2014/30/EU) EMC Directive (2014/30/EU) Radio Equipment Directive (RED) (2014/53/EU) Electrical Equipment (Safety) Regulations 2016 (S.I. 2016/1101)

Even though names of UK regulations differs from European directives, they are using similar or same standards. UKCA marking uses its own *designated standards* and CE marking uses its *harmonised standards* to fulfil requirements of the listed regulation/directive. Also, UK is still using standards that are also acceptable for CE compliance.

The UKCA marking can be used from 1st January 2021.
