TRM driver install on Windows

Watch the instructional GIF below to learn how to install TRM driver.

Mobile Internet Activation

In network connection window automatically creates a cellular network.

- Click on the Windows start button.
- Go to Network & Internet settings.
- Activate the mobile data by clicking on the Mobile button.

Add APN

If you need to enter APN settings:

- Right-click on Mobile.
- Go to Mobile -> Advance options.
- Add a new APN in APN settings by clicking on the "Add an APN" button.
- Enter the required information and save.

Testing Mobile connection

Testing mobile internet connection:

- Open the Command Prompt.
- After typing ping 8.8.8.8 there should be an answer.
