2020.08.14: changes in bottom labeling

Effective 2020, week 36, TRM250 modems will be produced with modified bottom labeling/engraving.

Change description

Change type	External/visual
Detailed description	The product code will be removed from the bottom labeling/engraving. The formatting for the remaining information on the labeling/engraving will be adjusted. Product code information will also be removed from the QR code. The labeling on the product packaging will stay unchanged. Old version: New version:
Change reasons	Placing product code on the product itself is misleading, product code describes what is included in the product equipment package, not in the product itself.

Affected products information

All TRM2** ***** product codes are affected. No product code changes.

Product release date2020, week 36

Change impact

Risk assessmentThe exact product code will not be present on the product itself, the exact product code will be found on the packaging box or determined by serial number. This might impact marketing materials due to changing contents of the bottom informational laser engraving.

Suggested implementation planNo implementation plan needed
