

Template:Networking device certification Giteki

The **Japan Radio Law** covers all products which utilize the radio spectrum and operate under 3 THz. Specified Radio Equipment Devices are subject to mandatory approvals. It aims at increasing public welfare by securing fair and efficient use of an electric waves. Testing is conducted on one sample unit for each type of radio equipment (officially called "construction design"), for attestation of the construction design. This is called the "construction design attestation system."

Description

This certification applies to all products using the radio frequency spectrum. The Giteki mark is a visible indication of a product's compliance with applicable Japans regulatory arrangements, including all technical and record-keeping requirements.

{{{name}}} Applied Standards

The conformity with the essential requirements has been demonstrated against the following harmonized standards:

Standard	Description
Article 38-24 of the Radio law	Wireless communication Standard
Article 56 paragraph 1 of the Telecommunications Business Law	Wireless communication Standard

Giteki mark Certificate [R] No.: {{{R}}}

Giteki mark Certificate [T] No.: {{{T}}}

Therefore  is placed on the product.

Device Approvals

Radio Law certification information can be found on **The Radio Use Web Site**.
