

Template:Networking device firmware test

This page contains various firmware versions for {{{series}}} devices.

Note: packages for [[{{{name}}} Package Manager|Package Manager]] are independent from firmware and can be downloaded in the [[{{{name}}} Package Downloads|Package Downloads]] page.

Firmware Version	Changelog
Latest FW*	[[Media:{{{file_latest}}} {{{name_latest}}}]] [[{{{name}}}_Firmware_Downloads#{{{name_latest}}}_7C_{{{date_latest}}} {{{date_latest}}}]]
Factory FW**	[[Media:{{{file_factory}}} {{{name_factory}}}]] [[{{{name}}}_Firmware_Downloads#{{{name_factory}}}_7C_{{{date_factory}}} {{{date_factory}}}]]
Latest Legacy FW*	[[Media:{{{file_factory}}} {{{name_factory}}}]] [[{{{name}}}_Firmware_Downloads_(legacy_WebUI)#{{{name_latest}}}_7C_{{{date_latest}}} {{{date_latest}}}]]

- * **Latest FW** - firmware candidate for release. This version will usually contain some new features and/or improvements (described in the Change log section of this article) but it hasn't been fully tested and approved by Teltonika's testing and technical support units. If **Latest** is the same version as **Factory** - it just means that no newer firmware than a **Factory** version is publicly available.
- ** **Factory FW** - firmware used in mass production.

FW checksums

A list of firmware checksums for {{{series}}} firmwares uploaded in this page: [[{{{series}}} Firmware checksum list|checksum list]]
