Template:Networking rut manual overview legacy

The information in this page is updated in accordance with firmware version .

Note: this user manual page is for *{{{name}}}*'s old WebUI style available in earlier FW versions. *[[{{{name}}} Overview|Click here]]* for information based on the latest FW version.

☐

Contents

Summary

The **Overview** page contains various information summaries and shortcuts to other pages. It is also the homepage of the WebUI. This chapter is an overview of the Overview page for {{{name}}} devices.

Overview

The Overview page contains **widgets** that display the status of various systems related to the device. The figure bellow is an example of the Overview page:

[[File:{{{file_overview}}}]]

Mobile widget

The **Mobile** widget displays information related to the mobile connection and the current **signal strength** ([[File:{{{file_signal}}}]]). Each filled-up bar represents a different RSSI value:

bars	signal strength value / RSSI (in dBm)
0	≤ -111
1	-110 to -97
2	-96 to -82

3	-81 to -67
4	-66 to -52
5	≥ -51

The same calculation principle applies to the **Signal strength LEDs** located on your device. You can find more information on signal strength values and different measurements **here**.

Widget button: Info

The **Info** ([[File:{{{file_button_info}}}]]) button is located next to the name of some widgets. Clicking the Info button redirects the user to a status page related to the widget's displayed information. For example, clicking the Info button on the Mobile widget would redirect the user to the **Status → [[{{{name}}} System|System]]** page:

[[File:{{{file_button_info_action}}}]]

Widget button: Settings

The **Settings** button is located next to the name of some widgets. Clicking the Settings button redirects the user to a configuration page related to the widget's displayed information. For example, clicking the Info button on the Mobile widget would redirect the user to the *Network → Interface →LAN Configuration* page:

Widget button: Wiki

The **Wiki** ([[File:{{{file_button_wiki}}}]]) button is located on the right of the title of some widgets. Clicking the Wiki button redirects the user to a page on this Wiki related to the widget's displayed information. For example, clicking the Wiki button on the RMS widget would redirect the user to the **RMS** page on this Wiki:

[[File:{{{file_button_wiki_action}}}]]

Adding more widgets

There is a default set of widgets displayed in the Overview page, but more can be added from the **System → Administration → [[{{{name}}} Administration#Overview|Overview]]** page.
