- [3 General Events](#)
- [4 System Events](#)
- [5 Network Events](#)
- [6 Connections Events](#)

Summary

The **Events Log** page contains information on various device related events. This article is an overview of the Events Log page for {{{name}}} routers. If you're having trouble finding this page or some of the parameters described here on your device's WebUI, you should **turn on "Advanced WebUI" mode**. You can do that by clicking the "Advanced" button, located at the top of the WebUI.

All Events

The **All Events** page contains a chronological list of various events related to the device. The figure below is an example of the Events Log section:

General Events

The **General Events** page contains a chronological list of general events related to the device. The figure below is an example of the Events Log section:

System Events

The **System Events** page contains a chronological list of system events related to the device. The figure below is an example of the Events Log section:

Network Events

The **Network Events** page contains a chronological list of network events related to the device. The figure below is an example of the Events Log section:

Connections Events

The **Connections Events** page contains a chronological list of connections events related to the device. The figure below is an example of the Events Log section:
