## Power Socket Pinout

---

[[File:Networking\_rutos\_manual\_input\_output\_power\_socket\_pinout\_configurableio\_{{{configurableio}}}.png]]

- **Power:** {{{input\_volts}}} VDC positive (+).
- **Ground:** negative/ground (-).
- **Input:** digital non-isolated input.
  - *logical low level:* 0 - 5 V;
  - *logical high level:* 8 - 30 V.
- **Output:** digital open collector (OC) output; 30 V, 300 mA.
