

# Template:Networking trb2xx manual ethernet port leds

## Ethernet port LEDs

The Ethernet port LEDs are located on the gateway front panel, in both upper corners on Ethernet port:

[[File:{{{file\_eth\_led}}}|{{{size\_eth}}}px]]

Since {{{name}}} gateway supports Fast ethernet speeds, **green** LED is not used and only **orange** LED represents information about ethernet connection activity:

	Action	Description
<b>LED</b> turned ON		Operating as a 10/100 Mbps connection
<b>LED</b> turned OFF		No link established
<b>LED</b> blinking		Connection established and there is activity (data being transferred)
<b>LED</b> blinking fast simultaneously with <b>connection</b> and <b>signal strength</b> LEDs		Router is in the bootloader menu state*

\* The **bootloader menu** is a special router state from which certain upgrades can be performed. For more information on the bootloader menu, click [here](#)
