## Monitoring History

Here, you will be able to view the data collected on your enabled monitoring templates over chosen time frame.

To view your desired monitoring templates data:

1. Select date range
2. Select which monitoring template's collected data you'd like to check.

Once the template is selected, you can then choose to view **By Template** or **By Parameter**. In **By Template** view, you will see all parameter section's values at the selected **time**, while in **By parameter** view, you will see a specific parameter's values over a selected **date range**

### By Template

#### Step by step instructions

1. Select **By Template**
2. Select date and time to view monitored parameter values at that time.
3. Select monitored parameter section/group
4. On the right side you will see monitored parameter values at the given time.

---

### By Parameter

## **Step by step instructions**

1. Select **By Parameter**
2. Select monitored parameter section/group
3. Select specific parameter.
4. On the right side you will see selected parameter's value on selected date range.
