

# Template:Rut ethernet port led table

They represent activity happening on the router's Ethernet ports:

ACTION	DESCRIPTION
<b>LED turned ON</b>	Operating as a 10/100 Mbps connection
<b>LED turned OFF</b>	No link established
<b>LED blinking</b>	Connection established and there is activity on this port (data being transferred)
<b>LEDs light up and turn OFF in sequence from WAN port to LAN1 port</b>	The router is in the bootloader menu state*
