Description

Teltonika Networks as responsible manufacturer is obligated to take care of it's produced electrical and electronic waste. Therefore in this article information can be found regarding WEEE memberships across Europe.

It is important to state, that Electrical and electronic equipment (EEE) and batteries contain materials, components and substances that may be hazardous and present a risk to human health and the environment. Hence, this EEE-product shall not be discarded together with household waste, but must be collected separately. Please contact your local municipality for information on authorized collection points in your area.
