Compatible SFP Modules With Teltonika Devices

Currently Teltonika Networks offers five devices with SFP ports: RUTXR1, TSW200, TSW202, TSW210 and TSW212. It's important to know which SFP modules are compatible with our devices SFP ports.

If the SFP module follows the official standard, there should be no issues using it with our devices. However, we have tested several SFP modules and can confirm that they work with our devices. Below is a list of SFP modules that have been fully tested and confirmed to be compatible with our devices.

- XGSF-BS5312-20D (XGIGA)
- XGSF-BS3512-20D (XGIGA)
- TL-SM321A (TP-Link)
- TL-SM321B (TP-Link)
