Summary

RUT955 routers used in Lithuania Dakar team vehicles for maximum performance in data connectivity and GPS location.

Customer profile

UAB „Bertara“ - security systems, fire alarm systems, television broadcasting, sound recording.

Challenge

When driving for a long time in harsh environments, high speed and when your car is in constant need of maintenance like in the case of Dakar Rally, a fast and reliable internet connection and GPS are crucial for keeping up communication with your team and having accurate GPS coordinates.

Solution

Teltonika's time-proven and durable RUT955 routers provide a stable connection and GPS location information.

Attachments
