Description

Gurtam has more than 15 years of best practice in software engineering in the area of GPS tracking and a team of talented specialists committed to the common goal. The community is united by continuous advancement of the proprietary product and five offices around the world – the headquarters and development center in Minsk and sales offices in Moscow, Boston, Dubai and Buenos Aires. Nowadays solutions by Gurtam occupy about 30% of the CIS commercial carrier market and are actively expanding to Europe, the Middle East, the USA, South America, Africa and Australia, with even New Zealand market tapped.

They create effective tools and they do it well. Hundreds of companies worldwide utilize Gurtam's system and in a hundred countries the clients, be them pizza delivery and taxi services, oil companies and even secret services, benefit from Wialon system. Gurtam products may not change the world, but they will surely change your business.
