Prototype page

• Troubleshooting, debugging, router recovery

- [My router went to "Safe mode" - what should I do?](#)
- [I entered the wrong password several \(5\) times and now I cannot reach the router's WebUI, what should I do?](#)
- [Port forwarding does not work, what should I do?](#)
- [How to download and upload a backup file?](#)
- [How can I restart a router that can't be accessed remotely via the Internet?](#)
- [Settings deleted after reboot](#)

• General questions about RUTxxx routers

- [Can I use routers in a vehicle?](#)
- [What OS do RUT routers use?](#)
- [Can I use LTE/3G/Wi-Fi antennas other than Teltonika's?](#)
- [Where are MAIN and AUX LTE antenna connectors on RUT9XX and RUT240?](#)
- [Can RUT routers be powered by solar batteries?](#)
- [Can your routers \(RUT2XX, RUT9XX\) be powered over Ethernet cable \(PoE\)?](#)
- [Can both SIM cards be active at the same time in RUT9XX series routers?](#)
- [What is the input/output count of different Teltonika routers?](#)

• Router control and configuration

- [How to use SMS commands?](#)
- [How to limit the router's internet speed?](#)
- [How to limit internet speeds for specific Wi-Fi users?](#)
- [How can I block specific websites so that clients would not be able to access them?](#)
- [How to login via SSH using an RSA key?](#)
- [Can WAN port be used as LAN?](#)
- [How to disable mobile data?](#)
- [Can I send GPS data to my server?](#)

• General networking questions

- [Mobile Signal Strength Recommendations](#)
- [Private and Public IP Addresses](#)
- [What is a Netmask?](#)
- [Network Address Translation](#)
- [Where can I get TLS certificates?](#)

• Remote access

- [RMS related questions](#)
- [How can I access my router remotely through the WAN interface?](#)
- [How to enable remote access on the router?](#)
- [How to access the router remotely via browser without the use of a Public IP?](#)
- [How can I configure port forwarding on my router?](#)
- [My router has a Dynamic Public IP address. How can I reach it via the Internet without checking what IP address it is currently using?](#)

• Router information

- [What LTE/3G/2G network frequencies do RUT routers support?](#)
- [RUT955 GPS protocols](#)
- [RUT850 GPS protocols](#)
- [What is the maximum range of the wireless signal on RUT devices?](#)
- [Power consumption of RUT850](#)
