Contents

- 1 Summary
- 2 CLI

Summary

The **CLI** or **Command Line Interface** functionality allows you to enter and execute Linux commands within the router.

This chapter of the user manual provides an overview of the CLI page for RUT230 devices. You can use "**CTRL** + **ALT** + **Q**" keyboard combination to open a CLI in a new tab while on **any** router's page.

CLI

CLI is a console interface similar to the Linux Terminal program. Use the following credentials to log in:

- Username: root
- Password: router's password

If the login was successful, you should be greeted with a window like this:
