Contents

Summary

The **Services** page is used for easy service management. From here you can monitor your device's services states. Click a button to access respective section where it was originally configured.

This chapter of the user manual provides an overview of the Services page for RUT230 devices.

Services

The **Services** page displays the status of most of the device's services. Services that are currently inactive are displayed in a red font, while active ones are highlighted in green.

The figure below is an example of the Services page:

Click the zone next to a service where it says "Change settings" and you will redirected to configuration page.

Additional notes:

- By default, only NTP and SMS Utilities services are enabled
- Some services have to be installed via Package Manager, before they can be visible.
