EAN composition

Teltonika products use the thirteen-digit EAN standard called **EAN-13**, which is comprised of three components:

- **GS1 prefix** - identifies the product's country of origin
- **Manufacturer code** - identifies the manufacturer
- **Product code** - identifies the product (assigned by the manufacturer)

RUT241 EAN

EAN components specific to RUT241:

- GS1 prefix: **477** (Lithuania)
- Teltonika's EAN manufacturer code: **905184**
- RUT241 product code: **0151***
- RUT241 full EAN number: **4779051840151**

* Not to be confused with the device's product code specified on the packaging of the device.
