RUT900 Services

<u>Main Page</u> > <u>RUT Routers</u> > <u>RUT900</u> > <u>RUT900 Manual</u> > <u>RUT900 WebUI</u> > <u>RUT900 Status section</u> > **RUT900** Services

The information in this page is updated in accordance with firmware version .

Note: <u>click here</u> for the old style WebUI (FW version RUT9XX_R_00.06.09.5 and earlier) user manual page.

Contents

- <u>1 Summary</u>
- <u>2 Services</u>

Summary

The **Services** page is used for easy service management. From here you can check the status of most services and find a link to each of their configuration pages.

If you're having trouble finding this page or some of the parameters described here on your device's WebUI, you should **turn on "Advanced WebUI" mode**. You can do that by clicking the "Advanced" button, located at the top of the WebUI.

×

Services

The **Services** list displays the status of most of the device's services.

×

Additional notes:

- The figure above is only an example. The actual ordering of the services on your devices will differ.
- Most services can be configured from the WebUI's 'Services' tab. Search the <u>RUT900 Services</u> <u>section</u> for guidance.
- The rightmost column contains a 'Change Settings' button next to each service. If you click on of these buttons, you will be redirected to the respective service's configuration window. <u>For example:</u> if you click 'Change Settings' next to the RMS service, you will be redirected to the Services \rightarrow Cloud Solution \rightarrow <u>RMS</u> page.
