## Description

The designation under ISED's certification program includes accreditation to ISO Guide 65/ISO 17065. However, specific procedures are necessary to demonstrate compliance with the administration of the Certification program. An "IC Number" is issued by ISED, after which the device can be placed on the Radio Equipment List (REL).

Prior to marketing or selling a radio transmitter in Canada, the device must first appear on the REL. This is a master list that can be viewed [here](#).

## RUT950 IC

### North America version

---

Teltonika Networks IC Company Number: **26511**

Certification Number: **26511-RUT955AF**

Product code: **RUT950 W\*\*\*\*\*** (North America)

RUT950 W\*\*\*\*\* IC Certificate, page 1

RUT950 W\*\*\*\*\* IC Certificate, page 2
