RUTM Routers

[Main Page](#) > **RUTM Routers**

RUTM is a series of cellular and Ethernet routers designed for advanced industrial solutions, including but not limited to remote equipment monitoring & management, WiFi & Ethernet connectivity, automotive and many others. **RUTM** is functionally identical to our more mature **[RUTX](#)** series, with the main difference being alternative processor hardware.

Here you will find technical documentation links for all RUTM series devices. If you can't find what you're looking for, try using the search bar located at the top-right side of the page, register your question on our [Crowd Support forum](#) or suggest an edit to our technical support team.
