

RUTX Routers

[Main Page](#) > **RUTX Routers**

RUTX is a series of cellular and Ethernet routers designed for advanced industrial solutions, including but not limited to remote equipment monitoring & management, WiFi & Ethernet connectivity, Bluetooth sensor data monitoring, automotive and many others.

Here you will find technical documentation links for all RUTX series devices. If you can't find what you're looking for, try using the search bar located at the top-right side of the page, register your question on our [Crowd Support forum](#) or suggest an edit to our technical support team.
