

RUT Routers

[Main Page](#) > **RUT Routers**

RUT is a series of cellular routers designed for advanced industrial solutions, including but not limited to remote equipment monitoring & management, WiFi & Ethernet connectivity, automation serial communication, automotive and many others.

Here you will find technical documentation links for all RUT series devices. If you can't find what you're looking for, try using the search bar located at the top-right side of the page, register your question on our [Crowd Support forum](#) or suggest an edit to our technical support team.
