Summary

The **Overview** page contains various information summaries and shortcuts to other pages. It is also the homepage of the WebUI. This chapter is an overview of the Overview page for TAP200 AP.

Overview

The Overview page contains **widgets** that display the status of various systems related to the device. The figure below is an example of the Overview page:

Widget button: Settings

The **Settings** button is located next to the name of some widgets. Clicking the Settings button redirects the user to a configuration page related to the widget's displayed information. For example, clicking the cogwheel button on the Device widget would redirect the user to the *System → Administration → General* page:
