TRB500 RCM

![x]

The **ACMA** regulatory arrangements require a supplier to apply a compliance label to a product before the product is supplied to the Australian market.

Description

![x]

For all ACMA regulatory arrangements, the compliance label is the **Regulatory Compliance Mark** (**RCM**). The RCM replaces the A-Tick and C-Tick compliance marks used under previous regulatory arrangements.

The RCM is a visible indication of a product's compliance with all applicable ACMA regulatory arrangements, including all technical and record-keeping requirements.
