Description

All communications equipment intended to send, process or receive information within the public telecommunications network is subject to type approval by the Authority. Type approval is done only once for each model of equipment.

Examples of the said communication equipment include but are not limited to:

- Mobile cellular devices (2G/3G/4G and future generations)
- Public Switched Telephone Network equipment (PABX, Fax, telephone handsets)
- Radio communication equipment (CB, HF, UHF,VHF, Microwave, Satellite, Broadcast transmitters)
- Data equipment (Routers, modems, switches)
- Digital Set top boxes (Satellite and Cable)
