

# Template:Networking device manual spatial measurements 3d

## 3D view

You can inspect the device's 3D model by downloading one of the following 3D files:

- [[Media:Networking\_{{{name}}}\_manual\_spatial\_measurements\_3d.pdf|3D .pdf file]]
- [[Media:Networking\_{{{name}}}\_manual\_spatial\_measurements\_3d.{{{3d\_type}}}|3D .{{{3d\_type}}} file]]

## Viewing 3D PDF file

---

To view and interact with the 3D PDF file, please follow these steps:

- Download the file.
- Open the file with a PDF viewing program; for this overview Adobe Acrobat Reader DC version 2020.012.20043 was used. Do not use your browser to open the file, because you will see only a blank page.
- It is that likely 3D content viewing will be disabled by default. If that is the case, you will see a blank page with a warning.  
**Click on *Options*** and select either to trust the document once or always. Pick a choice in accordance with your preferences.  

- After this you should be able to see and interact with the 3D model. For easier navigation, click the right mouse button and **select *Show Model Tree*** and look to the left side. You should see a list with all parts where you can pick and choose what you want to be displayed on your screen.
- If a warning message was not displayed but you still cannot view the 3D PDF file, please try the following:
  1. Go to ***Edit → Preferences → 3D & Multimedia***.
  2. Tick the ***Enable playing 3D content*** checkbox.
  3. If you cannot locate 3D content options, please **update your PDF viewer** to the latest version.
