## Template:Networking rutos manual mobile usage rut2 rut9

The information in this page is updated in accordance with firmware version .

## **Contents**

- 1 Summary
- 2 Mobile Usage Data Periods

## **Summary**

The **Mobile Usage** page contains graphs that display mobile data usage values over different periods of time.

## **Mobile Usage Data Periods**

You can navigate to different pages to display mobile data usage values over different periods of time. This includes:

- Day data usage values for the current day
- Week weekly data usage values
- Month monthly data usage values
- **Total** data usage for the entire monitoring period

The figure below is an example of the **Day** data usage graph:

[[File:Networking rutos mobile\_usage\_dualsim\_{{dualsim}}}\_v2.png]]

Mobile data usage graphs for other periods of time are essentially identical, with the exception that different time units are displayed at the top of the graphs.

Below the graph you can see total data usage during specific data period.

**Note:** your carrier's data usage accounting may differ. Teltonika is not liable should any accounting discrepancies occur.
