

Template:Networking rutxxx manual device recovery cli

```
root@Teltonika-{{{name}}}:~# firstboot
```

```
This will erase all settings and remove any installed packages. Are you sure?
```

```
[N/y]
```

```
y
```

```
/dev/mtdblock5 is mounted as /overlay, only erasing files
```

```
root@Teltonika-{{{name}}}:~# reboot
```
