

Where can I find the event log for my RMS profile?

[Main Page](#) > [IoT Platforms](#) > [RMS](#) > [RMS FAQ](#) > **Where can I find the event log for my RMS profile?**

All related device events are stored in the **Events log**.

1. To reach the **Events log** of a router, log in to RMS and check the Main window table.
2. On the left side of the table, you will see the "Actions" column which contains a few icons next to each device.
3. Click the  **Device details** icon next to the device whose Device details you would like to reach.

To reach **Events log** click on the  **Device details** icon.

Below you will find an example of **Events log** and device information window.
